Segmental reporting by geographical location has not been prepared as the Group's operations are substantially carried out in Malaysia.

#### 9. Valuations of property, plant and equipment and investment properties

The valuations of property, plant and equipment and investment properties were brought forward without any amendments from the previous annual financial statements, except for the adjustment to certain cost incurred for the investment properties.

#### 10. Material subsequent events not reflected in the financial statements

There were no material subsequent events not reflected in the financial statements.

#### 11. Changes in the composition of the Group

There were no changes in the composition of the Group during the current quarter under review, including business combinations, acquisition or disposal of subsidiaries and long-term investments, and restructuring.

The figures have not been audited

#### 12. Review of performance

Performance of the current quarter against the immediate preceding year's corresponding quarter.

The Group reported revenue of RM60.3 million and profit before tax of RM5.5 million for the current quarter under review as compared to revenue of RM119.2 million and profit before tax of RM9.0 million in the preceding year's corresponding quarter. The lower Group revenue is mainly due to reduced contribution from the property development division which was partially offset by better performance in the hospitality and property investment division.

In the preceding year's corresponding quarter, contribution from the property development division was higher mainly due to the completion of the first phase of Emerald 9 project in Cheras.

The performance of the hospitality division improved in the quarter under review with higher occupancy and better average room rates. The performance of the property investment division also saw improvement with increased average rental rates and better cost management in our DC Mall.

The Group incurred lower administrative expenses and finance costs as compared to the preceding year's corresponding quarter. The lower shares of results of associates and joint ventures were mainly due to lower contribution from Rawang projects following the completion of Mallow Lakepark Homes and Garland Residence 1 and 2 in the previous financial year, partially offset with higher contribution from Tower Real Estate Investment Trust ("Tower REIT") through improved occupancy and average rental rate in the current quarter.

### 13. Material change in profit before tax for the current quarter compared with the immediate preceding quarter

The Group recorded a profit before tax in the current quarter of RM5.5 million as compared to a profit before tax of RM45.1 million in the immediate preceding quarter. The decrease was mainly attributed to the lower contribution from the property development division during the quarter. Furthermore, the higher profit generated in the immediate preceding quarter was due to the fair value gain for investment properties of RM3.6 million and a one-off net gain arising from accretion interest in Tower REIT of RM37.3 million respectively.

#### 14. Prospects

Malaysia's economy is expected to continue growing for the remainder of this year, driven by resilient domestic expenditure with recovery in external demand. On the domestic front, continued employment and wage growth especially from the government sector will stimulate household spending. Headline inflation is expected to remain moderate for the remainder of 2024 underpinned by the recent strength of the Malaysian Ringgit. Challenges, however, remain in the domestic property sector from elevated interest rates and rising construction costs leading to depressed profit margin. Property sales remain challenging due to an oversupply of properties in different markets and segments. The Group's key focus remains on the timely completion of its on-going development projects, monetisation of its inventories and prudent financial management to navigate the evolving market environment. New product launches will be phased in line with the prevailing local market conditions. Furthermore, the Group remains vigorous in reviewing the development plans of its existing landbank to ensure their marketability and relevance as well as seeking acquisitions for expansion.

The figures have not been audited
